To Whom It May Concern,

Please accept this letter of support for Dr. Graves' request of the technology fee grant. As the head coach of the FAU men's basketball team, I would welcome the addition of an AlterG anti-gravity treadmill. I am quite familiar with the AlterG, as it is used by many professional and collegiate basketball teams. The benefits to our program and for our student-athlete's health and wellness would be significant.

Should Dr. Graves technology fee grant request be honored, I would look forward to working collaboratively with her department to quicken our student-athletes ability to return to play after injury. I have personally experienced the impact the AlterG has helping athletes return to the court faster and better conditioned after suffering an injury. I would also be happy to assist with potential research projects that our exercise science students and faculty may partake in to further their educational pursuits.

Should you need any further information, please feel free to contact me.

Sincerely,

A blue ink signature of Michael Curry, written in a cursive style, is positioned above the printed name.

Michael Curry

Head Men's Basketball Coach
