## WHO WE ARE

---

At National AV Installations, we install and integrate audio and video products to create a turnkey system for our customers. We design systems that best match your needs and desires within your budget. We provide support and stand behind all of our work. We can also help you develop and implement a future technology plan. We have been providing outstanding, reliable installation and technology services to our valuable clientele for over a decade. Let us help you design and implement an AV/IT strategy for your business, teaching center, school or university that will give you a competitive advantage. In today's market, it is essential that your product or system installation is done properly the first time. We can help you protect your investment and your budget by developing a technology plan that will grow with you and allow future enhancements and/or additions with minimal intrusion.

Our knowledgeable and friendly personnel provide unmatched service and workmanship. We are always available to help with any size installation or service call. We save you money and productivity, using our innovative strategy of installation, continual monitoring, and progressive design. We provide

on-site and remote support for optimal response to any situation. Our goal is to predict and prepare for changing equipment trends in the markets so that any system can adapt easily to future equipment demands. We design and plan our installations so that you are able to grow with ease. We offer the following services:

- On-site consultations
- Project survey & analysis
- Space planning & equipment arrangement
- Audio & Video Installation services from basic to turn-key
- Systems design
- Purchasing, delivery, & installation
- Project coordination & management
- Project Consulting Services
- Maintenance Services

Thank you for considering National AV Installations for your Audio and Video Installation needs. We look forward to working with you and creating a stunning environment that you will love for years to come.

Sincerely,

*Mike Walton*

Mike Walton  
Managing Director  
National AV Installations, Inc.

# OUR SERVICES

## OUR RESPONSIBILITIES

We will procure, deliver and install qty (1) 49" smart display, tilt-wall mount for digital signage at a height determined by end user. We will also provide a cable raceway to cover the electrical power cord and will run from behind display to the power outlet below. We will move one network connection from below display to behind display for network connectivity of the display. We will also install 1 HDMI cable and wall plate to travel from behind display to below display to an HDMI wall plate. A short HDMI cable will be provided to connect a local PC or laptop to the display via HDMI connector. We will also provide and install 1 Google Chromecast device to open HDMI port on display to allow wireless screen mirroring from another computer or compatible device. All computers, content and related devices are customer furnished.
