Description

Lockable ADA Compliant iPad Kiosk with Cable Management System

This lockable ADA compliant iPad kiosk adheres to the height and reach requirements set by the Americans with

Disabilities Act. The floor standing tablet enclosure is accessible to guests of all abilities and ensures inclusion of everyone. Your 10.5" Apple device can be showcased in portrait or landscape orientation with this ADA compliant iPad stand. Cable management keeps all cords out of sight and contained within the floor standing tablet enclosure. A rugged aluminum build is durable enough to withstand heavy customer use. Using an ADA iPad kiosk is a terrific way to comply with the Americans with Disabilities Act while identifying yourself as a business that values inclusion for everyone.

ⓘ Please Note: Kiosk supports ADA height and reach standards. Confer with [ADA guidelines](#) to understand other measures required to reach full compliance.

What is the ADA?

The Americans with Disabilities Act (ADA) is a civil rights law that prohibits discrimination against individuals with disabilities. The law was written to ensure that people with disabilities have the same opportunities as everyone else in all public and private places.

Why is ADA conformation important?

ADA compliance is important to ensure that the public accommodations you are offering are accessible to all users.

What should I consider when shopping for a kiosk to support ADA compliance?

Meeting Forward Reach Guidelines:

Forward Reach Guidelines

If a kiosk is designed to be accessed via a forward reach and has no obstructions (such as a countertop), the highest touch point of the screen must not exceed 48" and the lowest touch point must be no less than 15".

Obstructions Less Than 20in

For kiosks with obstructions such as a countertop that do not exceed 20" in depth, the highest touch may not exceed 48". The floor space directly under the obstruction must be kept clear.

Obstructions Greater Than 20in

Obstructions may not exceed 25" in depth. When obstructions are between 20-25" in depth, the highest touch point may not exceed 44". The floor space directly under the obstruction must be kept clear.

Meeting Side Reach Guidelines:

Side Reach Guidelines

If the only way to approach a kiosk is with a side approach and the kiosk has no obstructions, the highest touch point may not exceed 48" and the minimum touch point must be no less than 15".

Obstructions Less Than 20in

For obstructions that do not exceed 10" in depth, the height of the obstruction must not exceed 34" and the highest touch point must not exceed 48".

Obstructions Greater Than 20in

Obstructions must have no more than a 24" depth. When obstructions fall between 10"-24" in depth, the maximum height of the obstruction must not exceed 34" and the highest touch point must not exceed 46".
