Product description

Size: **Polished Aluminum Base/StudioWhite Frame** | Color: **Rhythm Charcoal**

Sayl Stool extends the distinctive look of the Yves Béhar-designed Sayl Chair into settings that feature tall tables or high counters. Its flexible suspension back adapts to each unique sitter, offering broad support to a diverse range of body types and work tasks, ultimately benefitting shared spaces with tall surfaces like drafting tables.

Features:

- **3D Intelligent Technology:** Sayl's revolutionary 3D Intelligent suspension back molds the support you need into the back material, eliminating hard edges and the need for a frame. The suspension back is a flexible elastomer that adapts to each person's unique shape and provides exceptional comfort and support for just about all body types.
- **Eco-Dematerialised Design:** Designer Yves Béhar is big on environmental responsibility in design. The result is a lightweight chair that is 93 percent recyclable. Structural components are hollowed out, reducing weight and volume. The ArcSpan, arm structure, and tilt mechanism are fused into a single strong part that also reduces the chair's weight. The Sayl stool weighs only 53 pounds.
- **Elegant Anywhere:** Shape matters, especially when introducing a chair into your home. At a desk, around a table, in the living room. The organic shape of the Sayl back makes it elegant anywhere, from every angle.
- **"The Best for the Most for the Least":** The standard for the designer when working on Sayl was to make a product that is the best design for the most people at the smallest cost. Herman Miller's goal was to make a stool that is everything a Herman Miller stool should be in terms of ergonomics, elegant styling, superior engineering, and ecological responsibility
