Hardware

Processor

Mac Pro is powered by the latest Intel Xeon E5 processors. Built using Intel's advanced 22-nanometer process technology, Intel Xeon E5 processors feature up to 12 processing cores and up to 30MB of shared L3 cache on a single chip.

[Learn more](#)

☒ 3.7GHz quad-core with 10MB of L3 cache

☐ 3.5GHz 6-core with 12MB of L3 cache [Add \$450.00]

☐ 3.0GHz 8-core with 25MB of L3 cache [Add \$1,800.00]

☐ 2.7GHz 12-core with 30MB of L3 cache [Add \$3,150.00]

Memory

Mac Pro supports up to 64GB of fast 1866MHz DDR3 ECC memory using a four-channel memory controller. Choose more memory to improve overall system performance.

[Learn more](#)

☐ 12GB (3x4GB) of 1866MHz DDR3 ECC [Subtract \$1,170.00]

☐ 16GB (4x4GB) of 1866MHz DDR3 ECC [Subtract \$1,080.00]

☐ 32GB (4x8GB) of 1866MHz DDR3 ECC [Subtract \$720.00]

☒ 64GB (4x16GB) of 1866MHz DDR3 ECC

Storage

Mac Pro comes standard with ultrafast PCIe-based flash storage that is up to 10x faster than a 7200-rpm SATA hard drive. With PCIe-based flash storage, your Mac Pro boots nearly instantly, applications launch fast, big projects open quickly, and everything you do is incredibly responsive.

[Learn more](#)

☐ 256GB PCIe-based flash storage [Subtract \$720.00]

☐ 512GB PCIe-based flash storage [Subtract \$450.00]

☒ 1TB PCIe-based flash storage

Graphics

Mac Pro comes standard with two workstation-class AMD FirePro graphics cards with up to 6GB of GDDR5 VRAM each, enabling powerful GPU-based visualization and compute capabilities in every system. Both GPUs are connected internally via x16 PCI Express gen 3 lanes for massive bandwidth. The FirePro GPUs in Mac Pro enable video output through both the Thunderbolt 2 ports and the HDMI 1.4 port, enabling you to connect up to three 4K displays or up to six Apple Thunderbolt Displays.

Pre-Installed Software

Final Cut Pro X

Final Cut Pro X makes editing faster and more fluid than ever before. The Magnetic Timeline provides a flexible canvas that lets you focus on storytelling, and next-generation Multicam gives you unprecedented control when editing multicamera projects. Powerful media management tools including range-based keywords and Content Auto-Analysis let you quickly tag and filter your files. And a dual GPU-enabled, 64-bit engine delivers blazing playback performance and fast background processing up to 4K resolution and beyond.

Languages: English, Chinese, French, German, Japanese, Spanish

This version is a free update for current users of Final Cut Pro X.

- ☐ Final Cut Pro X [Add \$299.99]

Logic Pro X

Logic Pro X is an advanced music production application that gives you everything you need to create amazing music. Built around a modern new interface, Logic Pro X includes a massive library of sounds and plug-ins and a collection of features that make it easy to compose, record, edit, and mix professional-quality tracks. Use innovative new features like Drummer, Flex Pitch, Smart Controls, and MIDI plug-ins to add creativity and polish to your sessions. And with Logic Remote, you can play and produce using your iPad from anywhere in the room.

Languages: English, Chinese, French, German, Japanese, Spanish

This version is a free update for current users of Logic Pro X.

- ☒ None
- ☐ Logic Pro X [Add \$199.99]

Aperture

Aperture gives your photography the professional treatment it deserves, with more sophisticated tools to perfect your images and powerful ways to browse and choose your best shots. Photos from Aperture and iPhoto come together in one unified library so it's easier than ever to step up to Aperture and go back to iPhoto whenever you want. The popular organizational features Faces and Places have even more power in Aperture. And nondestructive brushes let you make selective adjustments to your image without creating masks or layers.

Languages: English, Chinese, French, German, Japanese

This version is a free update for current users of Aperture version 3.

- ☒ None

Service and Support

AppleCare Protection Plan

For up to three years from your computer's original purchase date, the AppleCare Protection Plan gives you direct, one-stop access to Apple's award-winning telephone technical support for questions about Apple hardware, OS X, iLife, and iWork. And you get global repair coverage for your Mac — both parts and labor — through convenient service options.

We've even made it easy to enroll. In fact, you don't really have to do anything. When you purchase the AppleCare Protection Plan with a new Mac, you'll be automatically registered in the plan. Shortly after your new Mac ships, we will mail you an AppleCare Welcome Packet, which includes your Proof of Coverage, as well as a Getting Started Guide with plan terms and conditions.

It's a good idea to keep this packet with your other Apple-related documentation for easy reference.

Service and support from the people who know your Mac best

Every Mac comes with [complimentary telephone technical support](#) for 90 days from your Mac purchase and a [one-year limited warranty](#). With the AppleCare Protection Plan, you can extend your service coverage to three years from the computer's purchase date. You can call Apple's award-winning technical support experts as often as you like and get your questions answered. And if you need repair service, we offer convenient service options around the world.

Extend your coverage to three years of service and expert telephone technical support.

Apple One-Year Limited Warranty and AppleCare Protection Plan benefits are in addition to rights provided under consumer law.

One stop for technical support

Because Apple designs the computer, the operating system, and many applications, the Mac is a truly integrated system. And only the AppleCare Protection Plan gives you one-stop service and support from Apple experts, so most issues can be resolved in a single call. Here's what you get:

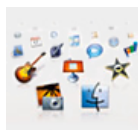

- Direct access to Apple experts
- Global repair coverage¹
- Onsite repair: Request that a technician come to your work site
- Carry-in repair: Take your Mac to an Apple Retail Store or other Apple Authorized Service Provider

Apple hardware coverage

The AppleCare Protection Plan provides global repair coverage, both parts and labor, from Apple-authorized technicians around the world. Apple hardware coverage includes:

- Your Mac computer
- Included accessories such as the power adapter
- Apple memory (RAM)
- AirPort²
- Apple display purchased with your Mac

Software support included

Whether you're sitting in the comfort of your home or office or on the go, you can get direct access to Apple experts for questions on a wide range of Mac topics, including:

- Using the OS X operating system
- Quick how-to questions about iLife and iWork
- Connecting to printers and AirPort networks

What you'll receive

- Getting started guide
- Terms and conditions

Important Notes

The AppleCare Protection Plan can be purchased only while your Mac is still covered under the standard one-year limited warranty. See [AppleCare Protection Plan Terms and Conditions](#) for complete product details.

For more information, read [frequently asked questions](#).

For Mac computers running OS X Server, the plan covers server administration and network management issues using the graphical user interface of OS X Server. For advanced server operation and integration issues, purchase [AppleCare OS Support](#).

(1) Availability of each option depends on country in which service is requested and location of Apple Authorized Service Provider. Apple may also request that the customer replace components with readily installable parts. (2) Must be purchased within two years of Mac purchase.

AppleCare Protection Plan benefits are in addition to any legal rights provided by consumer protection laws in your jurisdiction. The company obligated under the AppleCare Protection Plan in the United States is AppleCare Service Company, Inc., an Arizona corporation and wholly owned subsidiary of Apple Inc., doing business in Texas as Apple CSC Inc. Purchase of the plan is not required to purchase the covered equipment. For complete details, see terms at www.apple.com/legal/applecare/appgeos.html.

one

One to One

One to One at the Apple Retail Store will help you do more than you ever thought possible with your new Mac. First, we'll set up your email, transfer your photos, music, and other files, and show you how to keep everything in sync with iCloud. Then, we'll work with you to create a curriculum tailored to your goals, learning style, and experience level.

One to One is just \$99 for a full year and is available only at the time you buy a new Mac from the Apple Retail Store or the Apple Online Store.

Important: You will attend all your sessions at an Apple Retail Store, so make sure there's a store near you. Search for [Apple Retail Stores](#) in your area.

- ☐ Apple Thunderbolt Cable (2.0 m) - Black [Add \$39.00]

Thunderbolt Optical Cable

Get the fastest transmission between Thunderbolt devices and your Mac Pro with Thunderbolt Optical Cables by Corning. Their optic technology uses the brilliance of light to deliver high-volume HD video, audio, and other data over much greater distances than ordinary cables can handle.

- ☒ None
- ☐ Thunderbolt 33 ft./10 m Optical Cable by Corning [Add \$329.95]

External Thunderbolt 2 Storage

Add high-speed external Thunderbolt 2 storage to your Mac Pro to experience the next generation of external storage performance. External Thunderbolt storage takes advantage of the 20Gb/s Thunderbolt 2 interface and makes working with videos, photos, and all of your data lightning fast. Up to six external Thunderbolt storage devices can be daisy-chained to a single Thunderbolt port, giving you the flexibility to add terabytes of high-speed storage to your Mac Pro with a single cable.

- ☐ PROMISE Pegasus2 R4 8TB (4 by 2TB) Thunderbolt 2 RAID System [Add \$1,499.00]
- ☐ PROMISE Pegasus2 R6 12TB (6 by 2TB) Thunderbolt 2 RAID System [Add \$2,299.00]
- ☐ PROMISE Pegasus2 R8 32TB (8 by 4TB) Thunderbolt 2 RAID System [Add \$4,599.00]

AirPort Time Capsule

AirPort Time Capsule is a wireless backup device that works automatically with Time Machine in OS

X to create an easy-to-use, hassle-free backup solution. A 2TB or 3TB hard drive gives you the capacity and safety needed for reliably backing up your Mac computers. AirPort Time Capsule is also a full-featured Wi-Fi base station with 802.11ac technology. So you can set up a high-speed wireless network and back up the Mac computers on your network. All with one device.
