RE: Quote 4295610
This quote is valid until 07/Dec/2014

Thank you for your interest in MathWorks products and services. The quote you requested is provided on the following pages.

There are several payment options:

- If you are using a credit card, visit the MathWorks Store to purchase online. It's quick, easy, and secure.
- If you are using a purchase order, review the requirements and submission instructions detailed in the Purchase Order Requirements section. Include the quote number on the purchase order.
- For other payment methods, see the Ordering and Payment Information section for details.
- Tax status – if tax exempt, please provide a valid tax exempt certificate. If not tax exempt, please include tax on your P.O.

If I may be of any further assistance, please do not hesitate to contact me.

Yours sincerely,

Tom McHugh
Sr Sales Acct Mgr

Ordering and Payment Information

U.S. or Canada orders please note: Your order will be subject to standard Canadian GST or U.S. sales taxes which will be calculated using the "ship-to" address at the time the order is processed. The taxes shown on your quote are estimated. If the correct tax is not shown on your quote please make the adjustment when remitting payment or submitting your purchase order. If tax should not be added to your order please provide a tax exemption certificate or other appropriate documentation if you have not done so in the past. See "Tax Remittance Information" below for additional tax information.

Online

Pay by credit card in MathWorks Store at mathworks.com/store. Login to MathWorks account is required. If you do not have an account, use the "Create an account" option on the login screen.

Money-Back Guarantee

If you are not completely satisfied with your purchase, call within 30 days for a full refund.

Academic Licensing

MathWorks is pleased to offer MATLAB®, Simulink®, and other MathWorks products at reduced prices to degree-granting educational institutions. The use of products licensed to institutions at Academic License pricing is restricted to on-campus computing facilities that are used solely in support of classroom instruction and research activities of students, faculty, and staff.

Institutions cannot use the products for commercial purposes. Research and development divisions and centers of universities, government agencies, and other not-for-profit organizations do not qualify for Academic License pricing. MathWorks offers reduced prices to degree-granting educational institutions as a service and asks your help in ensuring that the practice is not abused.

Licensing Options

Individual: The Individual license is intended for use by a single named user or on a single computer. It offers a choice between two activation types: Standalone Named User and Designated Computer.

Group: The Group license is intended for locations where an administrator manages a group of Individual licenses with the Designated Computer activation type. This license option requires a minimum of two licenses.

Concurrent: The Concurrent license is intended for use by a specified number of concurrent users to run the product on any computer that is connected to a single FlexNet® license manager. Installation of the products is limited to institution-owned computers or computers personally owned by faculty, research, and academic staff.

Classroom: Classroom licenses are restricted for use in on-campus instruction labs used solely for classroom instruction of students. A Classroom License offers a choice between a Group license with a Designated Computer activation type or a Concurrent license. Course instructors are granted the right to use a copy of the software for course preparation only. Use of the products for any other purposes, such as research by faculty and staff, is not allowed.

Activation Types

Standalone Named User: The products are used by a single named user. The products can be activated on up to four different computers, provided that the products are only accessible to and used by that single named user.

Designated Computer: The products may only be activated and used on a single, designated computer, provided the products are only operated from that computer's console by only one Licensed User at any given time.

License Term

Perpetual licenses provide the right to use the software indefinitely, and the first year of MathWorks Software Maintenance Service is included in the initial purchase price. After the initial 12 month period, an annual fee is required to renew your Software Maintenance Service.

*Software Maintenance Service

The first year of Software Maintenance Service is included with new product licenses. You can continue uninterrupted service in subsequent years by renewing your MathWorks maintenance subscription annually.

Your MATLAB® subscription must be current in order to add new products or additional users to a license and to receive the latest product versions. The annual subscription fee is calculated based on the products installed on your configuration and the license option acquired.

Software Maintenance Service provides:

- **Access to New Features:** Increase your effectiveness and efficiency by using new product features delivered in general releases twice each year.
- **Direct Technical Support:** Resolve technical issues and get technical solutions through telephone, e-mail, and Web assistance provided by specialized support engineers.
- **Online License Management:** View license details, manage user permissions, activate software, get passcodes for previous releases, and obtain order status.
- **Ability to Add New Products:** Extend your computing environment by adding products to your license at any time. A MathWorks maintenance subscription gives you access to the latest release to ensure compatibility with new versions of MathWorks products.
- **Bug Fixes:** Receive bug fixes via twice-yearly general releases and periodic Web updates, as well as interim solutions from Technical Support.

Maintain Your Investment

Because MathWorks ensures compatibility among products in the same release, a maintenance subscription ensures that you have access to the latest release and can add products to your license. If your subscription has lapsed three months (90 days) or more you incur back maintenance charges plus a reinstatement fee to receive the latest product versions. Staying subscribed is the most cost-effective way to get the latest advances and all the support you want.

Ineligible Programs

Not all Programs are eligible for deployment, compilation, distribution, or Web access. For Programs that are ineligible, see mathworks.com/ineligible_programs.

Additional Fees

The fees for the License are determined based upon the country where all Licensed User(s) are principally located. Additional fees may apply to a transfer of the License, or the principal location of any Licensed User, to another country.
