SUBJECT: Tech Fee Library Resources support

On behalf of the Charles E. Schmidt College of Science, I offer my strong support for the Tech Fee proposal requesting additional library resources for the college. The addition of the two requested e-book collections to the library would support the information needs of faculty, students and researchers as well as afford the flexibility of multi-user access, 24/7. As the college continues to expand and advance in research, it is essential that the library continue to provide access to appropriate resources.
