Warranty:

TRAZER® is warranted to the original purchaser for a period of one (1) year from the date of shipment. Video/computer display systems, audio components, personal computers, printers and other externally interfaced components are covered by original manufacturers' warranties. Refer to extent of warranty coverage for additional information.

In no event shall Company be liable for any indirect, incidental, special, or consequential damages, including without limitation lost profits or damages for loss of or inability to access data, whether or not foreseeable, in an action in contract, tort, or otherwise, as a result of product purchased and/or of services performed or not performed.

Except to the extent specifically set forth herein, Company disclaims all warranties, obligations, and liabilities, express or implied, arising by law or otherwise, with respect to any Alleged Defects in any products or services provided as part of any statement of work, including, but not limited to any (i) implied warranty or merchantability or fitness for a particular purpose, (ii) implied warranty arising from course of performance, course of dealing, or usage of trade, (iii) claim of infringement, or (iv) statutory remedy.

Terms and Conditions of Sale:

Terms are 50% payment of total balance with submission of Purchase Order; balance in full 10 days prior to shipment. A 15% restocking fee applies once Customer Purchase Order is submitted and order is later cancelled. We typically require a 6 - 8 week lead time after placement of Purchase Order and payment of deposit is received. If payment in full is made with Purchase Order, we will advance your order in the queue. Installation of the TRAZER unit requires that (8) screws be mounted in the wall. Your contractor should mount the TRAZER according to our provided template and instructions prior to the inservice.

Client contractor/customer to provide power at each TRAZER location and for each monitor. TRAZER tech support and software are accessed via the internet. TRAZER has wireless internet capability if your facility has access, or it can be hard wired to your network if you provide connection at its location. If internet connection at the site is not feasible, you will need to take the unit to a wired site in order to download software updates, etc.
