About Fuel3D

Fuel3D is the developer of SCANIFY, an affordable handheld 3D scanner that delivers fast, high-resolution shape and color capture for a range of 3D modeling applications, such as 3D printing, as well as on-screen applications like 3D art, animation and game development. SCANIFY’s ability to accurately capture color 3D models of the human form is ideally suited to the rapidly growing trend of personalization. SCANIFY is the world’s first 3D scanner to combine pre-calibrated stereo cameras with photometric imaging to capture and process a 3D model in seconds.
